

## ARCHITECTURE AT RICE UNIVERSITY

designates a series of reports on thoughts and investigations from the Department of Architecture of Rice University. It is published in the belief that architectural education can best be advanced if the teachers, practitioners, students, and interested laymen share in what they are thinking and doing.

## #15 CONTINUOUS FORM

by

Bill N. Lacy, Associate Chairman and

Frank S. Kelly, Fifth Year Student

Houston, Texas April 1965

THE BASIC ORGANIZATION OF ANY FORM IS EITHER CONTINUOUS OR DISCONTINUOUS.

NATURAL FORMATIONS (ROCKS, RIVERS, TREES) AND MOST OF MAN'S DEVICES (AIRPLANES, DISHES, CHAIRS, LAVATORIES) ARE CONTINUOUS IN FORM. REFLECT FOR A MOMENT ON WHAT THESE OBJECTS WOULD BE IF OTHERS ACCEPTED THE SAME LIMITS WHICH ARCHITECTS HAVE ACCEPTED FOR ARCHITECTURE. CAN ONE IMAGINE A SHIP WITHOUT A GRACEFUL, SWEEPING HULL OR A PIECE OF TABLEWARE WITHOUT FLOWING LINES? AN OBSERVATION OF AN INTERIOR SPACE USUALLY REVEALS THAT THE SOLE OBJECT MAKING ONLY 90° JUNCTURES IS THE CONTAINER ITSELF — THE ROOM.

ON THE ASSUMPTION THAT FORM TAKES ITS SHAPE FROM FUNCTIONAL AND AESTHETIC FACTORS, SHOULD ARCHITECTURE BE EXCLUDED?

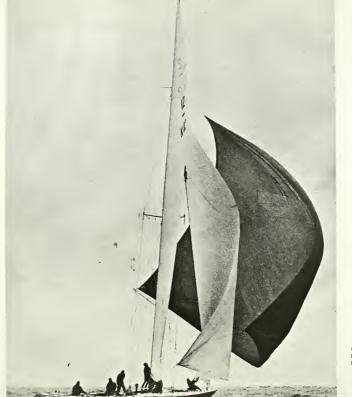

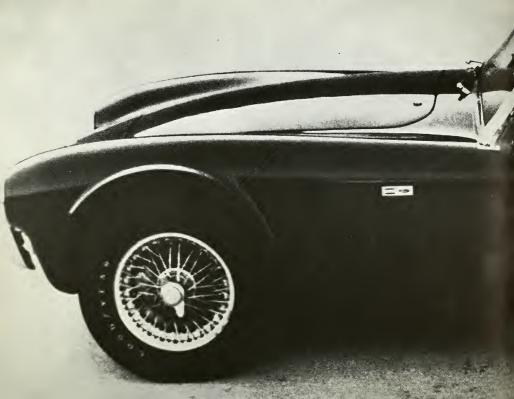

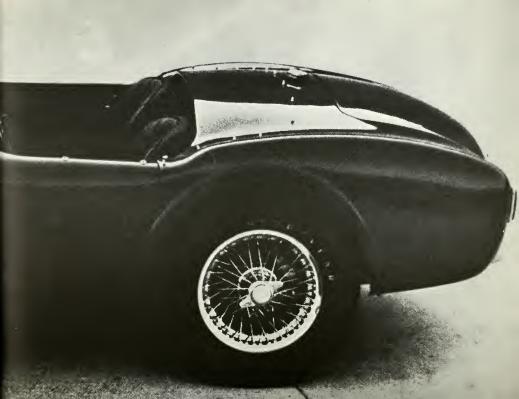

CONTINUOUS FORMS SHAPED BY FUNCTIONS

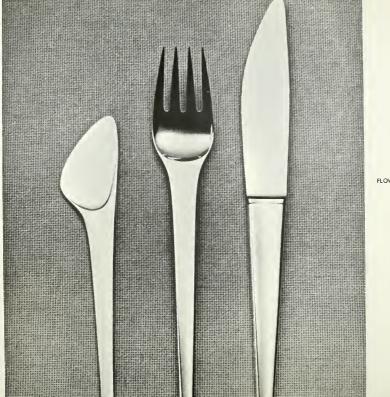

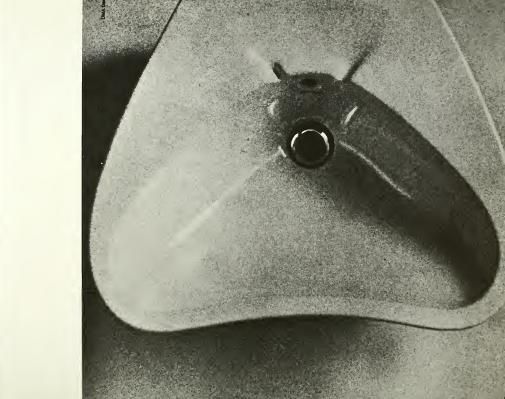

FLOWING LINES

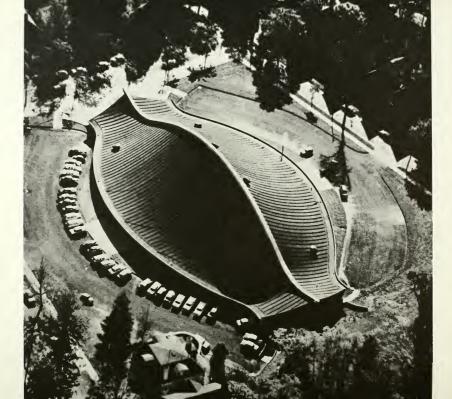

DITINUOUS MOVEMENT

...IT IS AS IF THERE WERE A NATURAL LAW WHICH ORDAINED THAT TO ACHIEVE THIS
END (MAN MUST) REFINE THE CURVE OF A PIECE OF FURNITURE OR A SHIP'S KELL, OR
THE FUSELAGE OF AN AIRPLANE, UNTIL GRADUALLY IT PARTAKES OF THE PURITY OF THE
CURVE OF A HUMAN BREAST OR SHOULDER.

A. de St. Exupery

...JUST AS THE PREFERENCE IN BEAUTY IS GIVEN BY PLATO TO THE SPHERICAL FIGURE,
THE EPICUREANS GIVE IT TO THE PYRAMID OR SQUARE AND CANNOT SWALLOW A GOD
IN THE FORM OF A BALL.

Montaigne

...BUILDINGS ARE NOT PLANTS OR ANIMALS, THOUGH THEY MAY BE CREATED BY THE APPLICATION OF THE PRINCIPLE OF ADAPTATION OF FORMS TO FUNCTION...ARCHITECTURE IS NOT AN ORGANISM; IT IS A PRODUCT OF THE HUMAN WILL, THE CREATIVE SPIRIT OF MANKIND.

THERE ARE UNANSWERED QUESTIONS AND UNEXPLORED OPPORTUNITIES OUTSIDE THE REALM OF DISCONTINUOUS FORM. THIS IS AN INTRODUCTION SEEKING TO EXPAND THE POTENTIAL OF ARCHITECTURAL DESIGN THROUGH A STUDY OF CONTINUOUS FORM.

## ARCHITECTURE AT RICE SERIES

- 1 ON PEOPLE AND THINGS, William W. Caudill, September 1961
- 2 UNITED NATIONS' CONFERENCE ON NEW SOURCES OF ENERGY, Paul Jacques Grillo, October 1961
- 3 RICE PRECEPTORSHIP PROGRAM, William W., Caudill, December 1961
- 4 ALVAR AALTO AND THE ARCHITECTURE OF FINLAND, Scott D. Hamilton, Jr., March 1962
- 5 THE ALUMNUS CRITIC PROGRAM, Morton L. Levy, Jr., May 1962
- 6 ARCHITECTURE FOR OUR TIMES, Howard E. Eilenberger, Author, L. James McCullar, Illustratar, June 1962
- 7 THE PEOPLE'S ARCHITECTS, William W. Caudill, March 1963
- 8 SKETCHES, Charles Schorre, Special Editar, April 1963
- 9 WILLIAM WARD WATKIN TRAVELING FELLOWSHIP WINNERS, Coryl LaRue Janes, May 1963
- 10 THREE CITIES, Paul Jacques Grillo, September 1963
- 11 THE AESTHETICS OF FOLDED PLATES, Clavis B. Heimsath, January 1964
- 12 AN EVALUATION THE RICE PRECEPTORSHIP PROGRAM, Caryl LaRue Janes, April 1964
- 13 THE RICE DESIGN FETE, AN EXPERIMENT IN EXPERIENCE, Caryl LaRue Janes, Authar, Maurice Miller, Photographer, June 1964
- 14 FOUR PLANNING CONCEPTS FOR BAY CITY, TEXAS, William T. Cannady & Architecture 300 Students, September 1964
- 15 THE CONCEPT OF PLASTIC FORM, Bill N. Lacy and Frank S. Kelly, April 1965
